

# Sensi Peel®

Sensi Peel® is formulated as a unique peeling option for all patients including those with highly sensitive skin. This gentle 6% TCA solution will improve surface texture and brighten the skin while helping to improve sun damage and other forms of hyperpigmentation. This multi-faceted and skin-brightening treatment is an excellent option for sensitive skin, rosacea or higher Fitzpatrick skin types.

.....

## clinical information

In a study of eight patients receiving a total of four treatments utilizing Sensi Peel® in conjunction with pigment controlling support products over a 19-week period, the investigating clinicians reported 80% of patients showing at least moderate improvement in pigment, texture, fine lines and overall skin health.
